Competition Programs and Frequently Asked Questions: The Grimes Superstars Competition Dance programs provide students the opportunity to take their dance and performance skills to the next level through additional class training and competition experience. Students attend a regular class and competition class each week; dance competition team members are also required to attend a dance technique class weekly; production team will practice one Saturday or Sunday each month.

These programs are designed to challenge the students, provide a chance to compete, enhance skills, and strengthen basic techniques, all at a manageable time commitment per week. The directors of Grimes Superstars take great pride in being able to offer these higher level programs at a reasonable time commitment so that students may still participate in school, church, and other community programs. As directors, we want students to be able to be "kids" and afford them the opportunity to be active members of their schools and community. However with that said, being a part of the competition team is a commitment that should be thoroughly considered as practices and performances are mandatory.

In addition to the Grimes Superstars Dance and Production Competition teams, this year we are once again offering a Pre-Competition combination class for 1st graders and up interested in competition dance. This Pre-Competition dance class will compete at a minimum of 3 competitions in April/May.

There is a lot to consider when joining a competition team, therefore we've provided a general **Frequently Asked Questions** for our competition team programs.
